

**Declaration regarding the forwarding of services
(according to § 3 SächsVergabeG)**

- In the event that the order is placed the offered services will principally be carried out in own company.
- The forwarding of services of subcontractors shall principally only be carried out up to an amount of 50 per cent of the order value and only with the Customer's consent. A list of the subcontractor services and the subcontractors envisaged for this purpose is enclosed with the offer.
In the event of the forwarding of services to subcontractors we undertake as per contract:
1. to involve preferred companies of the small- and medium-sized enterprise business sector, insofar as it is compatible with the execution of the order as per contract,
 2. to inform subcontractors that it concerns a public order,
 3. when forwarding delivery services to make the General Contractual Terms and Conditions for the execution of services of the German Procurement and contract procedures for Supplies and Services (VOL/B) part of the contract,
 4. not to impose any more unfavourable conditions upon the subcontractor, in particular with regard to the mode of payment, than agreed between the Contractor and the public sector customer.
