

This architectural floor plan illustrates a building with a sloped roof. The plan is divided into several rooms and corridors, with dimensions and elevations provided for each section. The left side of the plan shows a long corridor and a room with a sloped roof section. The right side shows a larger room with a sloped roof section and a smaller room. The plan includes various dimensions, such as room widths, corridor widths, and overall building dimensions. Elevations are marked at various points, including the roofline and floor levels. The plan also shows the location of doors, windows, and other architectural features.

The technical drawing consists of two cross-sectional views of a building facade. The left view shows a sloped roof structure with multiple levels and structural supports. Key dimensions include a total height of 2.98' on the far left, a base level at -0.20', and several internal heights such as 2.36', 2.86', 2.85', 2.83', 2.38', 1.38', 6.21', 2.41', 3.27', 2.38', 2.58', 2.58', 1.66', and 3.28'. Elevation markers above the roofline range from +2.99' to +3.74'. The right view shows a similar structure but with a central window opening. It features a total height of 2.98' on the far right, a base level at -0.20', and internal dimensions like 2.36', 2.38', 1.82', 3.18', and 3.6'. Elevation markers above the roofline range from +1.62' to +3.82'. Both sections show detailed structural components like beams, supports, and insulation layers.
